ashwini-k-b Ashwini-200

Professional Summary

MCA graduate with a strong foundation in **Python, Core Java, Data Structures, and SQL**. Currently pursuing full-stack development training with Python, Java, and AI. Interested in building scalable applications and solving complex programming problems.

Technical Skills

Programming Languages: Python, Core Java, SQL
Python: Data Types, Functions, Loops, Strings, Lists, Tuples, Sets, Dictionaries, Problem Solving
Java: OOP Concepts, Classes, Objects, Inheritance, Polymorphism, Abstraction, Exception Handling
Data Structures: Arrays, Strings, Searching, Sorting, Basic Algorithms
Database: MySQL, SQL Queries, Joins, CRUD Operations
Backend: Spring Boot, Hibernate, REST APIs
Frontend: HTML5, CSS3, JavaScript, Angular
AI/ML: Machine Learning Fundamentals, CNN, ResNet50, PSO, Pandas
Tools: VS Code, Eclipse, Jupyter Notebook, MySQL Workbench, GitHub
Core Concepts: OOP, DBMS, SDLC, Software Testing

Projects

Breast Cancer Detection Using Machine Learning *6 Months*
Python, ResNet50 (CNN), PSO, KNN

- Developed a machine learning system to classify breast cancer using histopathology images.
- Used **ResNet50 CNN** for feature extraction and **Particle Swarm Optimization (PSO)** for feature selection.
- Applied K-Nearest Neighbors (KNN) for image classification.
- Published research findings at the **IEEE-associated ICKES 2022 Conference**.

Real-Time Voice and Document Translator *2 Months*
Python, Speech Recognition, Google Translate API, Streamlit

- Developed a multilingual application supporting speech-to-text and document translation.
- Integrated speech recognition, translation APIs, and text-to-speech functionality.
- GitHub: `Project Repository`

Real-Money Online Gaming Loyalty Analytics *1 Month*
Python, Pandas, Jupyter Notebook

- Analyzed player transactions and deposits to calculate loyalty points and monthly rankings.
- Implemented ranking logic, tie-breaking conditions, and financial calculations.
- Designed a proportional reward allocation model for an **INR 50,000 bonus pool**.
- GitHub: `Project Repository`

Experience and Technical Training

TAP Academy *September 28, 2026 – Present*
Full Stack Development Training

- Currently undergoing full-stack development training in **Python, Java, and Artificial Intelligence (AI)**.
- Learning frontend and backend development, programming concepts, and AI integration through practical exercises and projects.

MediBuddy *March 2026 – October 2026*
NATS Trainee

- Performed quality checks and validation of medical reports, ensuring data accuracy, document completeness, and compliance.
- Verified identity documents, checked data masking, and coordinated with internal teams to resolve discrepancies.

Sensei Technologies Pvt. Ltd., Bangalore *November 2024 – January 2025*
Web Developer Intern

- Gained practical exposure to web development using Java, Spring Boot, Spring Framework, and Angular.

Arrow Electronics, Bangalore *November 2022 – February 2023*
Manual Tester Apprentice

- Executed manual test cases, identified software defects, and performed functional and regression testing.

Achievements and Certifications

Research and Academic Achievements

- Published research on **Breast Cancer Detection Using Machine Learning** at the IEEE-associated ICKES 2022 Conference.
- Served as Student Coordinator for **TechIntellect 2021** and **TechVinzo 2K22**.
- Participated in the MINDTRICK-2020 All India Level Chess Tournament.

Technical Certifications and Training

- **Python with AI Domain Training** – Zestech Global Pvt. Ltd. and AMC Engineering College (October 2024).
- **Introduction to Data Analytics** – Simplilearn (February 2025).
- **Artificial Intelligence Fundamentals** – IBM SkillsBuild (June 2025).
- **Cybersecurity Fundamentals** – IBM SkillsBuild (July 2025).
- **Ethical Hacking** – VTU Centre for Online Education (January 2025).
- **Privacy and Security in Online Social Media** – VTU Centre for Online Education (January 2025).

Education

Master of Computer Applications (MCA) **CGPA: 8.7/10**
AMC Engineering College, Visvesvaraya Technological University, Bengaluru
2025

Bachelor of Computer Applications (BCA) **CGPA: 7.2/10**
Maharani Lakshmi Ammanni College for Women, Bengaluru
2023
